SEPTEMBER NOTICE TO ALL MEMBERS

Mr. Chris Brown (son of the tech. lecturer) will host the technical paper for September. The Reichenau Mill situated between Bulwer & Underberg on the R617 was severely damaged by cyclone De Moina.

The paper will focus on the history of this mill including the initial installation, usage of the mill and the subsequent restoration of the mill which is on-going.

The restoration of this mill is close to completion (approximately 90%) and plans are afoot to have it running by mid October. An invitation has already been forwarded to Saimena members & their families to witness this on 18 October 2009 where a picnic day has been planned.

This talk will give a good insight into the planned visit and we encourage members to attend.
